PPC-S123 Expansion Kit Installation Guide

1.1 Packing List

- PISA Riser Card
- Metal Latch
- Metal frame
- Screw Pack
- Metal Rear Cover

1.2 Assemble the Expansion Kit

1. First, remove the riser card cover.

2. Put the metal frame on the rear cover, then secure the latch to fix the metal frame.

3. Insert the PISA riser card into the panel PC, then screw the PISA riser card with two screws on the metal frame to fix it.

4. In addition, insert a half-size of the expansion card on either PCI or ISA on your optional.

5. Screw the metal rear cover with four screws on the metal frame.
